ATT00001.txt

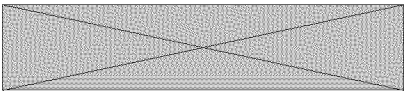

Undine

Thanks for sending the information on the DMRs and your update on the status of the permit. As you offered this afternoon, could you please let me know who in the legal department I could speak to regarding the public availability of information in response to the 308 request that was made to the MBTA.

Ileen

**Subject:** Follow-up for MBTA CRMF NPDES DMR information (MA0003590)

Ileen,

The following public site has DMR information available for download at the following links:

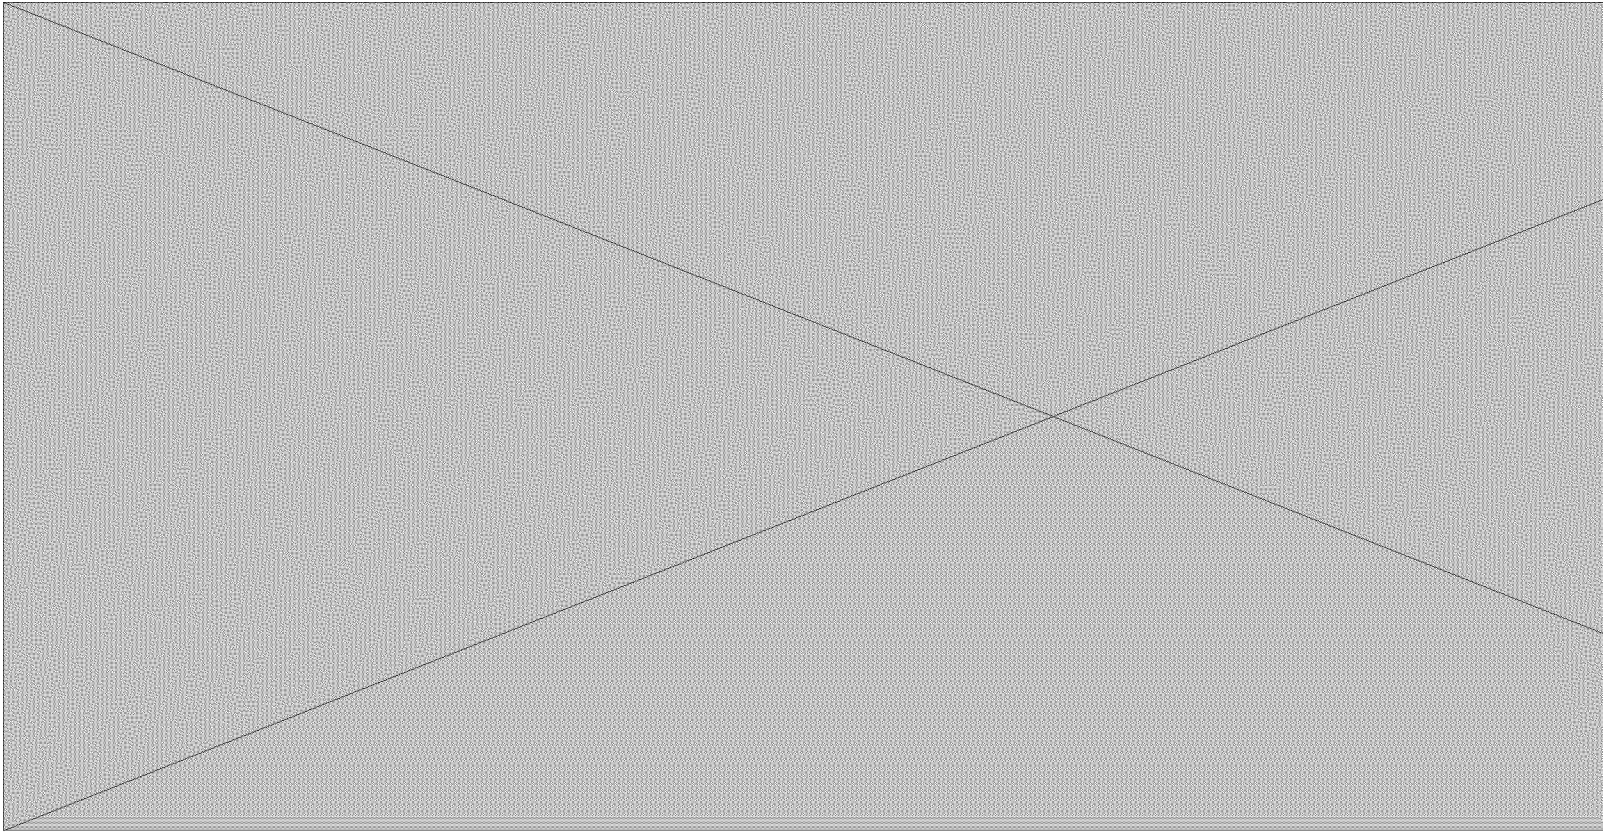

<https://echo.epa.gov/trends/loading-tool/get-data> - public DMR website  
<https://echo.epa.gov/trends/loading-tool/get-data/permit-factsheets> - “NPDES Monitoring Data Download” tool

Just in case, I included some snapshots of the sites below. I find the “NPDES Monitoring Data Download” tool the most helpful. With this tool, you can search for and download data from the facility by NPDES permit ID and selecting a date range by clicking on the default month and year range. For the MBTA Commuter Rail Maintenance Facility, as you know, the NPDES permit ID is MA0003590. The DMR data then automatically downloads to an Excel file. The MBTA CRMF currently has one permitted outfall named “001”.

I hope this helps. Please feel free to reach out if you need more information or you have questions on data format or troubleshooting.

Kind regards,

Undine
